

Students are at the heart of Curry's mission. The gifts you make to fund scholarships, fellowships, research grants, travel stipends and more help us turn our vision for a future of excellence, at all levels of education, into reality.

Curry faculty are making great strides in their studies of mathematical instruction, education policy, youth violence, teacher effectiveness, and more. Your support for department funds and other faculty pursuits ensure that we keep Curry on the forefront of life-changing educational research.

THANK YOU

Gifts from donors like you have a far-reaching impact through Curry's clinics and community programs. We are touching the lives of children, teens, and adults locally, nationally and internationally through programs created and run by our students and faculty.

Thank you for making a difference at Curry!

Over the 2011 fiscal year, gifts like yours have helped build research and academic programs, fund scholarships, fellowships, and awards, and improve students' academic and service experiences. Your gifts helped Curry recruit and retain faculty, and they continue to help finance Bavaro Hall, a world-class facility that fosters collaboration, interaction, and groundbreaking innovation in our areas of expertise. Not only do students and faculty reap the benefits of your gifts, but children and families across the Commonwealth, the nation, and even the globe are impacted by the clinical programs and community initiatives coordinated through Curry.

We couldn't do it without you. Thank you for your generosity and commitment to education!
